

# FRESH RESCUE

A collaborative approach to radically reduce food waste and eliminate food insecurity in Cascade County

It all starts with

**community kitchen**  
*(and one kinda big idea):*

What if we could better utilize and distribute food at risk of being wasted to families experiencing food insecurity

And maybe if we all work together we can do **EVEN MORE**.  
Maybe we could impact food insecurity and waste in Cascade County in a radical way.

We could deliver food pantry boxes to rural areas, provide meals to those in need, address transportation barriers that contribute to food insecurity, and more. And that's just the beginning. Maybe we could ensure that every kid in Cascade County had healthy options to eat every day.

Radical huh?

Join us, and help make our vision a reality.
