

Great Falls Rising Monthly Newsletter

August 2026

Every month we have begun the GFR newsletter with stats about the particular month; however, for the next 2 years and 4 months Great Falls Rising will be concentrating on the incredible Constitution of the State of Montana, revered by a majority of states in the US, and informing our readership and your contacts of the importance of keeping it as is. On election day 2030 the MT electorate will decide whether to accept the constitution as is or to rewrite the entire document.

Fifty four years ago, 100 delegates gathered for 56 days to produce the constitution which eliminated the copper collar held by the mining industry since 1889 when MT was granted statehood. You'll be receiving information about the articles in the constitution as well as statements made by delegates and those hundreds of people who researched everything and supported the work of the delegates. We will be working with other state-wide groups and individuals who were either there or recorded events during this period of time. We hope you enjoy reading and learning about the MT Constitution.

The articles we're sending will be separate from the monthly newsletter, so be on the lookout and please share them with friends or suggest to your friends to go to the GFR website greatfallsrisingmt.org where they can sign up to receive our messages, as well as look up articles already sent.
